KANSAS STATE UNIVERSITY. The Department of Chemistry (www.ksu.edu/chem) invites applications for a tenure-track position at the Assistant Professor level. We seek an outstanding colleague in the area of Synthetic Organic Chemistry. Applicants with interdisciplinary interests extending into bio- or medicinal- or nanomaterials-related research are encouraged. Applicants must hold a Ph.D. in Chemistry or a closely-related field and will be expected to develop a vigorous, creative research program that attracts extramural funding and capable co-workers, and to excel in teaching Organic Chemistry to a diverse population at the graduate and undergraduate levels. Candidates must submit a letter of application, a curriculum vitae, a statement of teaching philosophy and interests, a description of proposed research, and arrange for at least three letters of recommendation to be sent to: Professor Stefan H. Bossmann (sbossman@k-state.edu; 785-532-6817), Department of Chemistry, 213 CBC Building, Kansas State University, Manhattan, KS 66506-0401. Screening will begin October 29, 2013. Complete details at http://www.ksu.edu/chem/news/positions.html

Kansas State University is an Equal Opportunity Employer and actively seeks diversity among its employees. In accordance with Board of Regents policy, a background check will be required for the successful candidate.
