ORGANIC CHEMISTRY FACULTY POSITION

The Department of Chemistry of the University of Nevada, Reno seeks applicants for a tenure-track Assistant Professor position in Organic Chemistry. Duties include teaching at the undergraduate and graduate levels and establishing an active and innovative research program in any area of organic chemistry. Preferred research programs would complement and extend current departmental research areas and may include (but are not limited to) such areas as organic synthesis, synthetic methodology, bio-organic chemistry, organic materials, medicinal organic chemistry, organic applications to renewable energy, and molecular sensors and devices.

For the complete position description, required and preferred qualifications, and online application instructions, please view https://www.unrsearch.com/postings/13399. Applications must be submitted online and should be received by November 4, 2013 to ensure full consideration. The University of Nevada, Reno is an Equal Employment Opportunity/Affirmative Action employer. Women and members of under-represented groups are especially encouraged to apply.

For further information about the position or search, contact the Search Chair, Professor Robert S. Sheridan, rss@unr.edu, 775-784-6730, or the Search Coordinator, Ms. Brady Janes, bradyj@unr.edu, 775-682-8304.
