The Department of Chemical and Biological Engineering at The University of Alabama invites applications for two tenure-track faculty positions consistent with building on the strengths of our existing faculty (http://che.eng.ua.edu/people/). Candidates will be considered for appointment at the assistant or associate professor level based on experience and qualifications.

The department is benefiting from the College and University’s rapid expansion in enrollment and facilities including completion of the fourth building in the $300 million Engineering and Science Complex in Summer 2013. These buildings provide over 900,000 square feet of state-of-the-art research and instructional space, the majority of which is devoted to the College of Engineering.

Applicants must have a doctorate in chemical engineering or a closely related field. Applicants are strongly encouraged to submit a resume, statement of research, and teaching interests, and a list of at least three references as soon as possible. Applications will be accepted and reviewed continuously until the positions are filled. A start date as early as May 2014 is possible. Electronic submission of application materials is required. Please apply at facultyjobs.ua.edu/postings/0808597 (Requisition 0808597).

For additional information regarding this search, please contact Dr. Eric Carlson, chair of the faculty search (ecarlson@eng.ua.edu).

The University of Alabama is an Equal Opportunity Affirmative Action Employer. Women and minorities are encouraged to apply.
